Allendale, NJ 07401

Subject: Label Amendment – Multiple Label Changes
Product Name: Chlorine Concentrate Granular
EPA Registration Number: 7364-45
Application Date: August 1, 2016
Decision Number: 520132

Dear Ms. Holcombe:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Page 2 of 2
EPA Reg. No. 7364-45
Decision No. 520132

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Wanda Henson by phone at (703) 308-6345 or via email at henson.wanda@epa.gov

Sincerely,

A handwritten signature in blue ink that reads "Wanda G. Henson". The signature is written in a cursive style with a large, stylized "H" and a trailing flourish.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. Corrosive. Causes irreversible eye damage or skin burns. Harmful if inhaled, swallowed, or absorbed through skin.

- [•] Open in a well-ventilated area. Avoid breathing dust and fumes.
- [•] Do not get in eyes, on skin or on clothing. Wear goggles and chemical resistant gloves. For additional protection of skin, wear long sleeves, and long pants and shoes with socks.
- [•] Wash hands after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
- [•] Remove contaminated clothing and wash clothing before reuse.

FIRST AID:

IF IN EYES: Hold eyelids open and rinse slowly with water for 15 to 20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Get medical attention.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

PHYSICAL or CHEMICAL HAZARDS:

DANGER. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gas and spatter. Do not add water to this product. Add only into water.

- [•] [Do not mix this product with a small amount of water. Only add this product directly to your pool.] {This statement will appear on Pool use labels only.}
- [•] Do not allow to become wet or damp before use.

Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.

- [•] Keep all foreign matter, including other water treatment products, away from this product.
- [•] Use only clean dry utensils to dispense this product.
- [•] Do not allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in a skimmer.
- [•] Avoid spilling this product.

Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases.

- [•] Store in a cool, dry, well-ventilated area away from heat or open flame.

Strong oxidizing agent. This product can increase fire intensity.

- [•] Keep away from heat and from flame and burning material (like a lighted cigarette).

{First sentence of paragraph below for containers less than 50 lbs.; complete paragraph for all other sizes 50 lbs. or larger}

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish and aquatic organisms.

Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

{If the following Spanish statement is used, it must appear directly above DIRECTIONS FOR USE.} [Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)]

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Reentry into treated swimming pool is prohibited above levels of 4 parts per million (ppm) available chlorine.

[This product is a stabilized concentrated chlorine that will provide effective control of bacteria and algae when used as directed. [For the convenience of continuously fed chlorine without the need to apply by hand, try our automatic feeder *{only with the GLB line}* that uses the [brand name] 3" Chlorination Tablets.]

- [
1. Adjust the pool water's pH value to between 7.2 and 7.8 and the total alkalinity to between 80 and 150 ppm as determined by a suitable test kit.
 2. Stabilize the pool water with 30 ppm of [Brand name] Stabilizer as directed on the container label. Regular use of this product will provide any needed makeup conditioner.
 3. Shock treat the pool water by using 9 ounces of this product for each 10,000 gallons of pool water. Before using the pool, be certain the chlorine level returns to 1.0 to 1.5 ppm.
 4. Maintain a free available chlorine level of 1.0 to 1.5 ppm (as determined daily by a suitable test kit) at all times. For each 10,000 gallons of pool water, add 2 and a half (2 ½) ounces of this product every other day (or 1 and a quarter (1 ¼) ounces daily) or more as needed to maintain the proper chlorine level.
 5. Shock treat your pool at least twice monthly (more often in warmer climates) according to Step 3 above. During hot weather and peak bather loads, shock treat your pool weekly to prevent water cloudiness and algae growth.

[*{Directions for single-use, non-resealable 1 lb. package}*

1. Adjust the pool water's pH value to between 7.2 and 7.8 and the total alkalinity to between 80 and 150 ppm as determined by a suitable test kit.
2. Stabilize the pool water with 30 ppm of [Brand name] Stabilizer as directed on the container label. Regular use of this product will provide any needed makeup conditioner.
3. Shock treat the pool water by using 1 bag (16 oz.) of this product per 10,000 gallons of pool water. Before using the pool, be certain the chlorine level returns to 1.0 to 1.5 ppm.
4. Shock treat your pool at least twice monthly (more often in warmer climates) according to Step 3 above. During hot weather and peak bather loads, shock treat your pool weekly to prevent water cloudiness and algae growth.

{For Household Use}

STORAGE & DISPOSAL:

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage:

Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food.

Pesticide Disposal and Container Handling:

Nonrefillable container. Do not reuse or refill this container.

If empty: Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency or www.website.com for disposal instructions. Never place unused product down any indoor or outdoor drain.

Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

{Nonrefillable container – single-use, non-resealable package}

[Keep this product dry in its tightly closed container. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse and discard empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment.]

{Nonrefillable container - non-household/residential use}

[Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Do not contaminate food or feed by storage or disposal or cleaning of equipment. Nonrefillable container. Do not reuse this container. Offer for recycling if available. Rinse empty container thoroughly with water to dissolve all material prior to disposal.]
